Aulia Atul A, Nurul 2023. *Pengaruh Media Pembelajaran Fun Thinkers Book Terhadap Minat dan Hasil Belajar Siswa Kelas III Semester 2 Subtema 2 Perubahan Energi di SDN Mayangan 2 Kota Probolinggo.* Skripsi, Program Studi Pendidikan Guru Sekolah Dasar (PGSD), FKIP, Universitas Panca Marga Probolinggo. Pembimbing (I) Didit Yulian Kasdriyanto, S.Pd., M.Pd, Pembimbing (II) Faridahtul Jannah, S.Pd., M.Pd.

Kata kunci: Media *Fun Thinkers Book*, Minat dan Hasil Belajar Siswa.

Penelitian ini bertujuan untuk mengetahui pengaruh media *Fun Thinkers Book* terhadap minat dan hasil belajar siswa kelas III SDN Mayangan 2. Jenis penelitian yang digunakan yaitu penelitian kuantitatif eksperimen. Metode yang digunakan adalah *Quasi Eksperimen* dengan bentuk desain *Nonequivalent Control Group Design*. Sampel dalam penelitian ini berjumlah 40 siswa, dengan pengambilan sampel menggunakan teknik sampling jenuh, teknik pengumpulan data yang digunakan adalah observasi, tes, dan kuesioner. Analisis data menggunakan uji normalitas, uji homogenitas, dan uji t dengan menggunakan rumus *Independent Sampel T-Test*.

Hasil penelitian ini menunjukkan bahwa perhitungan pengujian hipotesis dengan bantuan *SPSS 26 for windows* dengan menggunakan *Independent Sampel T-Test* pada taraf signifikansi 5% diperoleh hasil uji hipotesis terhadap hasil belajar siswa dengan nilai $t_{hitung} = 2,325 \geq t_{tabel} = 2,024$, dapat dilihat nilai sig.(2-tailed) = $0,025 \leq 0,05$, maka H_0 ditolak dan H_a diterima. Sedangkan hasil uji hipotesis terhadap minat belajar siswa diperoleh nilai $t_{hitung} = 4,588 \geq t_{tabel} = 2,024$, dapat dilihat nilai sig.(2-tailed) = $0,000 \leq 0,05$, maka H_0 ditolak dan H_a diterima. Sehingga, dapat disimpulkan bahwa ada pengaruh penggunaan media pembelajaran *Fun Thinkers Book* terhadap minat dan hasil belajar siswa kelas III pada subtema 2 Perubahan Energi di SDN Mayangan 2 Kota Probolinggo.

ABSTRACT

Aulia Atul A, Nurul 2023. The Influence of Fun Thinkers Book Learning Media on the Interests and Learning Outcomes of Class III Semester 2 Students, Sub-theme 2 Energy Change at SDN Mayangan 2, Probolinggo City. Thesis, Elementary School Teacher Education Study Program (PGSD), FKIP, Panca Marga University, Probolinggo. Advisor (I) Didit Yulian Kasdriyanto, S.Pd., M.Pd, Supervisor (II) Faridahtul Jannah, S.Pd., M.Pd.

Keywords: Media Fun Thinkers Book, Interest and Student Learning Outcomes.

This study aims to determine the effect of the Fun Thinkers Book media on the interest and learning outcomes of class III students at SDN Mayangan 2. The type of research used is experimental quantitative research. The method used is Quasi Experiment with the Nonequivalent Control Group Design. The sample in this study amounted to 40 students, with sampling using saturated sampling techniques, data collection techniques used were observation, tests, and questionnaires. Data analysis used the normality test, homogeneity test, and t-test using the Independent Sample T-Test formula.

The results of this study indicate that the calculation of hypothesis testing with the help of SPSS 26 for Windows using the Independent Sample T-Test at a significance level of 5% obtained the results of hypothesis testing on student learning outcomes with a value of $t_{\text{count}} = 2.325 \geq t_{\text{table}} = 2.024$, it can be seen that the sig value. (2-tailed) = $0.025 \leq 0.05$, then H_0 is rejected and H_a is accepted. While the results of the hypothesis test on students' interest in learning obtained $t_{\text{count}} = 4.588 \geq t_{\text{table}} = 2.024$, it can be seen that the value of sig. (2-tailed) = $0.000 \leq 0.05$, then H_0 is rejected and H_a is accepted. So, it can be concluded that there is an effect of using the Fun Thinkers Book learning media on the interest and learning outcomes of class III students in subtheme 2 Energy Changes at SDN Mayangan 2 Kota Probolinggo.
